

How to make a simple Bug Hotel

Things you will need:

- Cleaned container, plastic bottle or a can (I used almette cheese empty container). If you use a plastic bottle – cut it down to shape.
- String (optional)
- Sticks
- Pine cones
- Moss
- Bark

Decide on the insect hotel location and if you plan to hang your bug hotel, loop some string around.

If you wish to decorate the bug hotel, use acrylic paints on the outside.

Arrange your materials - check what materials you have and arrange them by size and texture – I snapped the twigs to make them a little smaller.

Start layering your bug hotel. Stuff it to make it nice and firm, so it doesn't get blown about!
